Profile

Frontend Developer with a strong foundation in JavaScript (ES6+), React.js, HTML5, CSS3, and Bootstrap. Skilled in building responsive, user-friendly, and performance-optimized web applications. Experienced in integrating RESTful APIs, implementing Responsive Web Design, and ensuring Cross-Browser Compatibility. to enhance user experience. Strong understanding of component-based architecture, state management, and front-end performance optimization. Seeking an entry-level Frontend Developer role to contribute technical skills and grow within a collaborative development team.

Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3

Framework and Library: Tailwind, Bootstrap

Programming: C++ (optional)

Database: MongoDB

Miscellaneous Skills: Git, GitHub, Postman

Education

Manipal University Jaipur, Bachelor of Computer Applications (pursuing)

2023 – 2027

- **Coursework:** Programming in C and C++, Python, Java, Operating Systems, and Computer Networks

Experience

Apna College, Internship

June 2024 – Aug 2025

- Implemented Responsive Web Design principles to ensure cross-device compatibility.
- Integrated RESTful APIs to fetch and display dynamic data.
- Wrote clean JavaScript using ES6+ features for improved code maintainability.
- Built and optimized responsive UI projects (Tic-Tac-Toe, Zerodha clone, Rock-Paper-Scissors) using React.js, JavaScript (ES6+), HTML5, and CSS3 with DOM manipulation and reusable components.

Projects

PORTFOLIO

[github.com/name/repo](#) ↗

- Developed a responsive personal portfolio website using React.js.
- Built reusable components to improve scalability and maintainability.
- Implemented Responsive Web Design to ensure cross-device compatibility.
- Optimized UI performance and smooth navigation using modern CSS techniques.
- **Tools Used:** React.js, Javascript (ES6+), HTML5, CSS3

Cuberto-main

[github.com/name/repo](#) ↗

- Developed a responsive website clone inspired by Cuberto using HTML5, CSS3, and JavaScript.
- Implemented smooth scrolling effects and modern UI animations.

- Designed structured layouts using Flexbox and CSS positioning techniques.
- Applied Responsive Web Design principles to ensure cross-device compatibility.
- Optimized styling for Cross-Browser Compatibility and consistent user experience.
- **Tools Used:** Javascript (ES6+), CSS, HTML

Hotels-main

[github.com/name/repo ↗](https://github.com/name/repo)

- Developed a responsive hotel booking interface with room listings and booking UI components.
- Implemented dynamic layout design and user-friendly navigation.
- Applied Responsive Web Design principles for mobile and desktop compatibility.
- Improved UI structure using semantic HTML and modular CSS styling.
- **Tools Used:** Javascript (ES6+), CSS, HTML

tic-tac-toe-main game

[github.com/name/repo ↗](https://github.com/name/repo)

- Developed interactive web-based games using JavaScript and DOM manipulation.
- Implemented win-detection logic and real-time game state updates.
- Added reset functionality and user interaction handling using event listeners.
- Ensured responsive layout and smooth user experience across devices.
- **Tools Used:** Javascript (ES6+), CSS, HTML

Strengths

Adaptability Continuous Learning: Quick to learn new technologies, frameworks, and best practices ensuring up-to-date development approaches in a fast-paced environment.

Time Management Multitasking: Skilled in handling multiple projects, meeting deadlines prioritizing tasks effectively, and adapting to dynamic work environments.

Strong Problem-Solving Ability: Adept at analyzing complex issues, debugging code, and implementing efficient solutions to optimize application performance.

Innovative Thinker: Passionate about finding creative solutions, enhancing functionality, and improving user experiences through efficient coding and problem-solving.
